OFFICE OF THE DIRECTOR

77-7817

Date: 6 June 1977

TO: Deputy Director for Intelligence

FROM: Executive Assistant to the DCI

SUBJECT: Ballistic Missile Firings

REMARKS:

During his visit to NSA, Admiral Turner was given a figure on total observed Soviet ballistic missile firings which was in conflict with the figure held by the Agency.

Has a cause for this difference been determined?

Commander, U.S. Navy

6 June 1977

SUBJECT: Narcotics Control (PCS/NAR) - Its Functions
and Relationship with the Office of Drug
Abuse Policy (ODAP)

1. Narcotics Control (PCS/NAR), an office made up of six persons, assists the DDO by providing staff support to him and the Operating Divisions on intelligence and other related activities concerned with foreign narcotics operations. Coordinated inter-directorate support is provided via the Chief, Policy and Coordination Staff, and the DDO for the DCI in the latter's role as a member of the Federal Strategy Council Working Group. Chief, Narcotics Control, serves as the Agency's principal point of contact for narcotics liaison with other agencies and departments, including the White House Office of Drug Abuse Policy, associated with international narcotics control matters.

2. In addition to personal meetings with Dr. Peter G. Bourne, PCS/NAR enjoys close and frequent contact with other members of the ODAP Staff. Mr. Lee Dogoloff, Dr. Bourne's Deputy, has participated in PCS/NAR sponsored training courses for CIA officers and is available to PCS/NAR during Dr. Bourne's frequent travels. Narcotics intelligence matters are usually discussed with either Mr. Seymour Bolten or Mr. Joseph Linnemann, both prominent members of the ODAP Staff. Special narcotics-related problems involving the Pakistan/Afghanistan area are discussed with Mr. Charles O'Keefe, ODAP's specialist in this area.

3. Dr. Bourne is the recipient of our intelligence disseminations on narcotics matters and of the finished intelligence produced by the DDI. (In CY 1976 CIA disseminated about 400 reports on narcotics and the DDI published about 150 articles in daily and weekly publications.) Dr. Bourne and several other high-level ODAP and State Department officials will be briefed on Wednesday, 8 June, on the application of overhead reconnaissance activities to narcotics. This will be the topic of a Spot Report. Dr. Bourne and certain of his staff have previously been briefed on other narcotics-related matters. PCS/NAR has worked

and Relationship with the Office of Drug
Abuse Policy (ODAP) Page 2

closely during the past month with Mr. Bolten in connection with Dr. Bourne's reorganization of the U.S. Government's narcotics program, specifically the foreign intelligence aspect of this reorganization.

4. In summary, PCS/NAR has ready access to all of the ODAP Staff involved with narcotics intelligence on international narcotics control matters and actively contributes to the ODAP program in this field. Dr. Bourne and his staff have been high in their praise of the Agency's narcotics program.

MEMORANDUM FOR: Deputy Director for Intelligence
FROM : Executive Assistant to the DCI

The Director asked what lines of communication
we have with Dr. Peter Bourne, the President's
Special Assistant on Drug Abuse.

ACTION

MEMORANDUM FOR: Commander

Executive Registry

77-4497/1

In response to the attached "[redacted] Gram," I asked our narcotics specialist, [redacted] to prepare a brief note on it. STAT

In sum, we have excellent liaison with Dr. Bourne and his office (as mentioned at this morning's meeting, Seymour Bolten is his intel specialist). This memo gives some of the background and what we've done.

I call your attention especially to fact Dr. Bourne will be given a briefing on Wednesday at NPIC on our use of overhead reconnaissance in narcotics detections (which is reportedly the subject of a Spot Report en route to the DCI).

2 JUN 1977

MEMORANDUM FOR: Deputy Director for Intelligence

FROM: Director of Central Intelligence

1. Dr. Brzezinski has recently been reviewing a very complete intelligence study on the comparative strengths of Soviet and Chinese military forces which Dr. Kissinger used about four years ago during a trip abroad. Comparison was of the Soviet forces arrayed against China. It included comparisons of aircraft, divisions, missile forces, mobility capability, etc. It included charts and maps to show the location of forces.

2. Dr. Brzezinski would like to have a similar piece of work sometime next week so that he could compare the trends in military balance from four years ago until today.

STANSFIELD TURNER

DDI

Sayre:

Your and CPS's excellent package on priority intelligence programs was most interesting.

I am somewhat concerned about the lack of reference to such community-agreed benchmarks as KIQ's and DCID 1/2. I am sure most of the topics relate but the relationship (or lack of one) should be clear.

I made effective use of the package at yesterday's NFIB meeting - a discussion of how one ~~deals~~ also with the priorities and sources of collection needs and production programs.

The upshot of the discussion

DDI

Washington, D. C. 20505

- 2 -

STAT was that [redacted] was named Chairman of a group to identify the 15-25 priority topics in need of addressing. His first request was to get the package I had described.

Please get together with Bob Soonest, discuss the process you've gone through in articulating the package and let him have a copy.
